Play Mode
Android Guide

Follow Step by Step

1. Create the mode
   * Go to Settings > Modes & Routines or Notifications > Do Not Disturb
   * Create a new mode and name it Play Mode

2. Silence everything
   * Set notifications to Block all
   * Disable app notifications entirely

3. Allow priority contacts only
   * Under People, allow calls or messages from selected contacts only

4. Automate it
      * Add a Location-based trigger so it activates when you arrive on holiday

5. Enjoy your day of play!

Play Mode
Apple Guide

Follow Step by Step

1. Create the mode
    * Go to Settings > Focus
    * Tap + and create a new Focus
    * Name it Play Mode

2. Block notifications by default
    * Under Allow Notifications, select People
    * Add only essential contacts (close family, emergency contacts)
    * Disable app notifications entirely

3. Set the schedule
    * Go to Add Schedule or Automation
    * Add a Location trigger (holiday destination) so it turns on when you arrive

4. Customize the look (optional)
    * Add a custom wallpaper for the mode for an additional playful vibe

5. Enjoy your day of play!
